

Dark Wolf Solutions Assessed “Awardable” for Department of Defense work in the CDAO’s Tradewinds Solutions Marketplace

Herndon, VA – November 6, 2024 – Dark Wolf Solutions, a technology firm providing cybersecurity, DevSecOps, and digital transformation services today announced that it has achieved “Awardable” status through the Chief Digital and Artificial Intelligence Office’s (CDAO) Tradewinds Solutions Marketplace.

The Tradewinds Solutions Marketplace is the premier offering of Tradewinds, the Department of Defense’s (DoD’s) suite of tools and services designed to accelerate the procurement and adoption of Artificial Intelligence (AI)/Machine Learning (ML), data, and analytics capabilities.

Dark Wolf Solutions operates at the nexus of technical innovation and mission needs, serving a diverse clientele ranging from federal and commercial customers across the United States to strategic partnerships with innovation centers like the Defense Innovation Unit (DIU) and leading-edge technology vendors such as Google, Amazon, Microsoft, NVIDIA, and Elastic.

“I’m thrilled that our video pitch about NeuroProbe was deemed Awardable by the Tradewinds Solutions Marketplace,” said Hahna Kane Latonick, Director of R&D at Dark Wolf Solutions. “AI-embedded applications are everywhere, offering incredible benefits; but, they often operate as black boxes within your systems. NeuroProbe will help illuminate these black boxes and their risks.”

Dark Wolf’s video, “AI Detection in Binaries: NeuroProbe”, accessible to government customers on the Tradewinds Solutions Marketplace, presents an actual use case in which the company detects, identifies, and characterizes AI models embedded in software, revealing potential security and privacy risks. Dark Wolf Solutions was recognized among a competitive field of applicants to the Tradewinds Solutions Marketplace whose solutions demonstrated innovation, scalability, and potential impact on DoD missions. Government customers interested in viewing the video solution can create a Tradewinds Solutions Marketplace account at tradewindAI.com.

###

About Dark Wolf Solutions: Combining deep understanding of current and emerging technology with federal domain expertise, Dark Wolf Solutions operates at the nexus of technical innovation and mission needs. Dark Wolf brings deep experience and expertise in full-stack Agile development, DevSecOps enablement, data and platform engineering, penetration testing and cybersecurity assessment, AI integration, enterprise modernization, and operational test and evaluation. For more information or media requests, contact: Oliver Sadorra, oliver.sadorra@darkwolfsolutions.com.

About the Tradewinds Solutions Marketplace: The Tradewinds Solutions Marketplace is a digital repository of post-competition, readily awardable pitch videos that address the Department of Defense’s (DoD) most significant challenges in the Artificial Intelligence/Machine Learning

(AI/ML), data, and analytics space. All awardable solutions have been assessed through complex scoring rubrics and competitive procedures and are available to Government customers with a Marketplace account. Government customers can create an account at www.tradewindai.com. Tradewinds is housed in the DoD's Chief Digital Artificial Intelligence Office.
